

Math for the people, by the people.

# Maple

Canonical name	Maple
Date of creation	2013-03-22 16:21:49
Last modified on	2013-03-22 16:21:49
Owner	Mravinci (12996)
Last modified by	Mravinci (12996)
Numerical id	6
Author	Mravinci (12996)
Entry type	Topic
Classification	msc 68W30

*Maple* is a computer algebra system produced by Maplesoft. The first version, developed by the University of Waterloo in Ontario, Canada, came out in 1981. The most recent version is 11.0. The program is named for a popular Canadian tree.

Like Mathematica, Maple has its own field in the On-Line Encyclopedia of Integer Sequences.
